## Cyber Safety Tips

### Best defense against Phishing attacks

**Phishing is a type of social engineering where an attacker sends a fake email designed to trick a person into revealing your personal information. Don't click on email links and attachments from a sender you are not aware of. See an example of a Phishing email and what to watch out for below.**

**Do you have any questions or concerns about cybersecurity? Give us a call or schedule an appointment and we'd be happy to answer any questions.**
